LiDAR & Hyperspectral Workshop

June 24-27th, 2014

Global Change Research Centre – CZECHGLOBE, Brno, Czech Republic

Dear colleagues,

let us invite you to the sixth Workshop and fourth Discussion panel of the HyDaP project:
„Airborne LiDAR and hyperspectral scanning for ecosystems assessment“

The workshop will be held at
Global Change Research Centre AS CR, v. v. i., Bělidla 4a, Brno, Czech Republic, see [map](#).

The lectures and practical training will be delivered by the team of prof. Nancy Glen, Boise Center Aerospace Laboratory, Boise State University.

The scope of the workshop is intended for:

- beginners in the LiDAR data processing and applications
- those who would like to extend their knowledge in the airborne and terrestrial LiDAR usage in ecological studies

Language of the Workshop will be English.

Whole programme of the workshop and discussion panel you can find here:
<http://hydap.czechglobe.cz/en>.

If interested, please register via the Doodle system: <http://doodle.com/mz95ytcmidttdprk>.

Any additional requirements for accommodation please send to Ing. Pavla Glocová:
glocova.p@czechglobe.cz.

Please, in requirements for accommodation specify whether you are not bothered with modest accommodation, or with whom you are willing to share a room.
Please, register before **19th June, 2014**.

The expenses on accommodation and refreshment during the workshop will be covered by the CVGZ.

We are looking forward to meeting you.
